

A German gin from Munich that stands out from the crowd: The Illusionist Gin! A dry gin with a beautiful presentation and a special illusion.

The production of Illusionist Gin is done in small batches by hand. The gin is not filtered before bottling and promises premium quality. Chemicals are avoided, and all botanicals used are natural.

But it's not just the bottle and presentation of Illusionist Gin that impress. The nose and palate are also enchanted. Flavors of juniper, mace, and angelica root define this gin. These are complemented by lavender and rosemary notes, as well as hints of fresh lemons and oranges.

Thanks to the inclusion of nutmeg flower, the gin changes its color from a deep blue to a soft light pink.
